

Frontier’s Wholesale Advantage Broadband service provides you with the options you need to create great Internet Access offers for your target markets. Our Digital Subscriber Line (DSL) service is available over our reliable copper connections in 26 states within our footprint, while our fiber-based FiOS, FiberHouse and FiberOffice services are available throughout key markets. Frontier can help you choose the service that best fits your business so you can develop the competitive offer that will make you stand out in your market.

Service only available in Frontier serving territories within the state

■ Fiber   ■ DSL   ■ DSL & Fiber

## WHOLESALE BROADBAND

Wholesale Broadband pairs Internet access with a new or existing Frontier voice line, enabling you to offer both services to your customers. Each is delivered by our Digital Subscriber Line service.

## WHOLESALE SIMPLY BROADBAND

Wholesale Simply Broadband enables you to provide standalone Internet access via Frontier’s Digital Subscriber Line (DSL) without requiring your customers to purchase voice services.

## BENEFITS

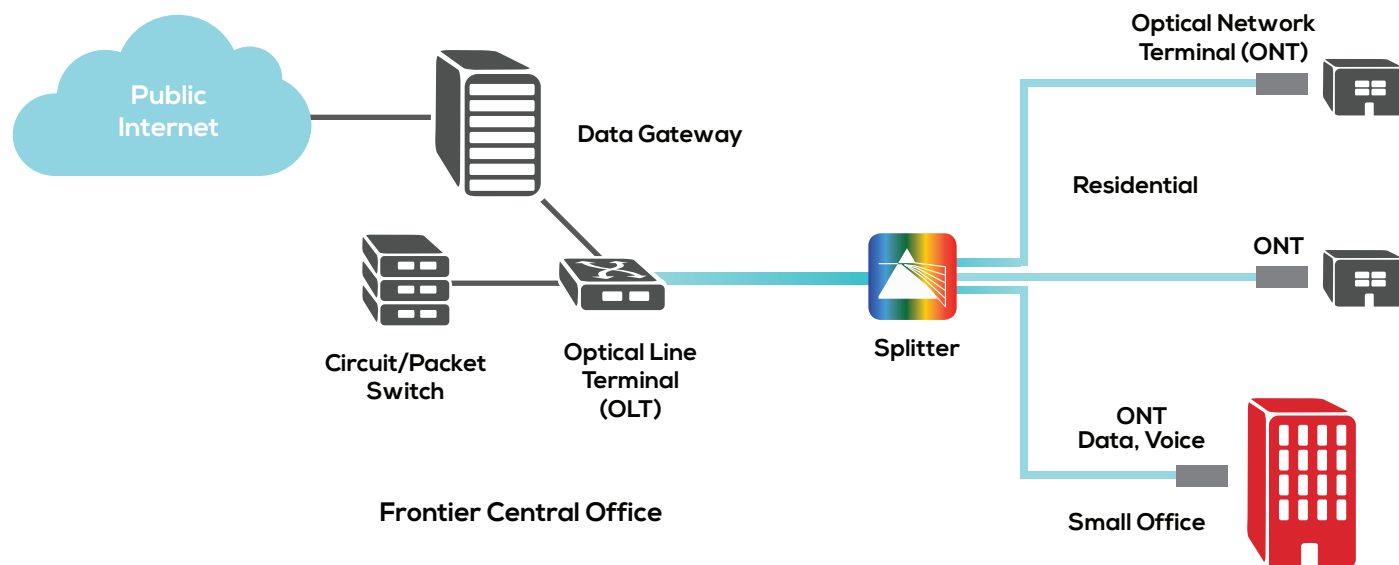

- Your choice of Internet and voice bundles or just Internet service
- Provides multiple Internet speed choices for your customers
- A range of price points you can leverage in your markets
- Widely available via copper connections so you can reach more customers

## FIOS, FIBERHOUSE AND FIBEROFFICE

More than ever, streaming video and other bandwidth-intensive applications are driving demand for high-speed access from consumers and businesses that utilize computers, laptops, smartphones, tablets and TVs. Frontier helps your business meet these new customer requirements by offering fiber-based Internet services that provide:

### BENEFITS

- Faster speeds than older, more traditional technology
- High quality signals that have minimal degradation over long distances
- Support for business applications such as VoIP, video conferencing and cloud services
- Improved consumer experience for video and gaming compared to older, slower connections

### FRONTIER WHOLESALE: DID YOU KNOW?

Frontier Wholesale has coverage where you need it with over 140,000 fiber route miles. We've also doubled the number of representatives in our service centers to help our customers. Frontier knows that you like to work with people who are local to you when possible, and we have dedicated teams for sales, engineering and technical support set up regionally to do just that.
