

FRONTIER WHOLESALE Ethernet Internet Access (EIA)

Frontier Communications® provides the robust Ethernet access your customers require for high-speed Internet service. With our continued investments in infrastructure and expanding coverage, we deliver a wide range of bandwidth speeds with flexible options, enabling us to better serve our wholesale customers.

The result is a whole new Frontier.

AN EXPANSIVE FOOTPRINT

Our coverage continues to expand with Ethernet Internet Access available in over 1,300 wire centers and 104 interconnection points throughout our growing territory.

MEF-CERTIFIED TO SERVE YOU

We offer the range of services, CoS capabilities, integrated interconnect delivery and the service management tools that assure the performance of your network.

DEDICATED SPEEDS

Select from 29 bandwidth choices that can handle your high-speed data requirements:

- 1M to 10M in 1M increments
- 15M and 20M to 100M in 10M increments
- 200M to 1G in 100M increments

MORE EFFICIENT ACCESS

Combine with Frontier EPL or EVPL services to provide reliable, economical Internet access shared across multiple locations, ensuring a consistent end-user experience.

CONNECTIVITY YOU CAN COUNT ON

Rest easy knowing that MEF-certified engineers proactively monitor our network 24/7/365 through our Network Operations Center.

THE FLEXIBILITY YOU NEED

Supports both IPv6 and IPv4 protocols. Choose electrical interfaces, or opt for optical interfaces at 10M, 100M or 1G speeds.

THE PROMISE OF FRONTIER WHOLESALE

COVERAGE

With the recent acquisition of major markets, we're the 4th largest ILEC in the country, serving customers in 29 states.

COMMITMENT

Frontier is deeply committed to improving our customer's experience by enhancing the overall speed and efficiency of the ordering and provisioning process.

CAPABILITY

Our investments have resulted in vastly improved capabilities—our Ethernet and fiber connectivity tools can now fulfill any network need.

COMPETITIVENESS

Frontier is now capable of delivering all the services and support our customers need at fiercely competitive prices.
