

Unlimited Digital Voice Top Calling Features

Included Call Features	Summary Descriptions
Robocall Blocking	Blocks unwanted calls.
Caller ID with Name	Displays the number and name of the caller before the subscriber answers the call.
Voicemail	Allows the caller to leave a message when the subscriber does not answer the call.
Call Waiting / Cancel Call Waiting	An indicator that incoming call is waiting to be answered. Allows the subscriber to place the call on hold, not to accept it, or send it to voicemail.
Call Return *69	Allows the subscriber to dial *69 to return the last incoming call with valid Caller ID number.
Call Forward	Forward incoming call to another number when subscriber's line is busy.
3-Way Calling	Allows subscriber to talk to 2 other people in different locations at the same time.
Anonymous Call Reject *77	Prevents anonymous calls who block delivery of their caller ID information.
Call Trace *57	Trace the number of the last call you received.
Speed Dial	Allows subscriber to use 1 or 2-digit codes as shortcuts for selected phone numbers.
Find-me Follow-me/Locate me (portal/app function)	Allows up to 4 numbers to be configured so all lines ring sequentially on an incoming call.
