

OH – Requests for Repair Service

Repair calls: must disclose rights and responsibilities concerning the repair and maintenance of customer-owned equipment, inside wire, and the use of a network interface device (NID) to test for service problems. During such call, the LEC must notify the customer of any charges that the company imposes for a diagnostic visit. In the event a NID is not in place, the LEC shall inform a customer calling to report a service outage or service problem that the LEC is required to visit the customer premise at no charge to diagnose whether service difficulties exist with network wire or inside wire.
